

Ahmed Reda Elgharbawy

Senior Flutter Developer / Mobile Application Engineer

Cairo, Egypt | +20 111 664 4523 | devahmedelgharbawy@gmail.com | linkedin.com/in/devreda | github.com/devahmedelgharbawy

PROFESSIONAL SUMMARY

Flutter developer with **4+ years** building mobile apps that people actually use — across healthcare, fintech, and enterprise. I take products from zero to the App Store, owning architecture, delivery, and the hard decisions in between. I've led mobile development end-to-end and worked on the product side, depending on what the team needed. I work best in environments that move fast and care about code quality.

TECHNICAL SKILLS

Mobile Development: Flutter, Dart, Android (Jetpack Compose), Kotlin, Java, Cross-Platform Development
Architecture & Patterns: Clean Architecture, MVVM, MVC, Repository Pattern, SOLID Principles, Design Patterns
State Management: BLoC, Cubit, Provider, Riverpod, GetX
APIs & Backend: REST APIs, GraphQL, Firebase, Firestore, WebSockets, Hive, SQLite
Platform Integrations: Apple Health, Google Fit, Google Maps SDK, Agora, Payment Gateways
DevOps & Tooling: Git, GitHub, CI/CD, Fastlane, FCM, Deep Links, GoRouter, Lottie
Testing & Quality: Unit Testing, Widget Testing, Integration Testing, Code Reviews, Clean Code
Soft Skills: Technical Leadership, Mentoring, Agile / Scrum, Client Management, Cross-functional Collaboration

WORK EXPERIENCE

Senior Flutter Developer · Girix Solutions

Apr 2024 – Present · Cairo, Egypt · Full-time

- Lead end-to-end mobile development for 3+ enterprise clients, owning the full lifecycle from requirements through production deployment
- Architected scalable Flutter solutions using Clean Architecture and MVVM, reducing codebase complexity by 40%
- Mentor 2 junior developers through structured code reviews; established team coding standards and best-practice documentation
- Optimised app performance to achieve consistent 60fps UI rendering and a 35% reduction in cold-start time
- Published 4 applications across Google Play and App Store maintaining a 4.3+ average star rating
- Collaborated with design and backend teams to deliver pixel-perfect implementations and seamless API integrations on schedule

Software Engineer — Mobile · Sanad

Oct 2023 – Present · Cairo, Egypt · Part-time

- Engineered health challenge platform integrating Apple Health and Google Fit APIs
- Implemented real-time fitness data synchronisation, eliminating 90% of manual data entry for end users
- Built full multimedia content platform — articles, podcasts, videos, community feed — with offline-first support
- Developed custom Lottie-animated calendar system and location-based services for challenge tracking
- Achieved 4.5★ rating on both iOS and Android through consistent performance optimisation and UX focus

Flutter Engineer · League Plus

May 2024 – Mar 2025 · Cairo, Egypt · Contract

- Architected and shipped a cross-platform sports prediction platform enabling real-time match predictions and custom league creation
- Implemented GraphQL integration for live match data with 99.9% uptime and sub-second data latency
- Built deep linking and referral engine that drove a 25% uplift in user acquisition
- Integrated Firebase Cloud Messaging for personalised push notifications achieving 40% open rate
- Grew and retained a community of 30K+ active sports enthusiasts through engagement-focused feature delivery

Flutter Developer · Freelance

Aug 2021 – Nov 2023 · Remote

- Delivered 6+ production mobile applications across healthcare, media, and transportation sectors independently
- Managed complete project lifecycle — requirements, architecture, development, testing, and App Store / Play Store deployment
- Integrated payment gateways, real-time chat (Agora), Google Maps, and thermal printing across client projects
- Built reusable component libraries reducing development time by 30% across subsequent client engagements

- Maintained 95% client satisfaction rate through consistent on-time delivery and responsive communication

KEY PROJECTS — LIVE APPLICATIONS

Sanad Rewards · *Health & Wellness* · *Android & iOS* · *100K+ Downloads* · *4.5 ★*  [Google Play](#)  [App Store](#)

- Apple Health & Google Fit API integration; multimedia platform with offline support for 50K+ active users
- Custom Lottie-animated calendar, location services, and community engagement features

Stack: Flutter, Dart, BLoC, Firebase, REST APIs, Apple Health, Google Fit

Pulse · *Gym Training and Fitness*  [Google Play](#)  [App Store](#)

- Pusher Socket real time chatting, Firebase, video player, Pedometer for steps tracking and location
- Deep linking and FCM referral system contributing to 25% user acquisition growth

Stack: Flutter, Dart, BLoC, GraphQL, Firebase, Hive, Deep Links, Lottie

The Kitchen · *Restaurant POS & Management* · *Android & iOS*  [Google Play](#)  [App Store](#)

- Full POS: order management, inventory, reporting; offline-first architecture for uninterrupted restaurant operations

Stack: Flutter, Dart, BLoC, REST APIs, Firebase, Local Storage

A Year in Review · *Medical Conference App* · *Android & iOS*  [Google Play](#)  [App Store](#)

- QR attendance, workshop enrollment, real-time Q&A, and moderator interaction for medical conferences
- Full Arabic / English localisation with complete RTL layout handling

Stack: Flutter, Dart, Cubit, REST APIs, Firebase, Localization

I-News TV · *Live News Streaming* · *Android & iOS*  [Google Play](#)  [App Store](#)

- HLS/RTMP live streaming with adaptive bitrate; custom video player, playlist management, and breaking news notifications

Stack: Flutter, Dart, BLoC, Video Streaming, Firebase, WebView

League Plus · *Sports Prediction* · *Android & iOS* · *30K+ Active Users*  [Google Play](#)  [App Store](#)

- GraphQL real-time sync with optimistic UI updates; BLoC state management across complex prediction and league flows
- Deep linking and FCM referral system contributing to 25% user acquisition growth

Stack: Flutter, Dart, BLoC, GraphQL, Firebase, Hive, Deep Links, Lottie

Salute · *Medical Transport & Emergency* · *Android & iOS*  [Google Play](#)  [App Store](#)

- Real-time ambulance tracking via Google Maps SDK and Socket.IO; automated scheduling cut patient no-shows by 30%
- Driver-patient matching algorithm with route optimisation and offline-first reliability architecture

Stack: Flutter, Dart, Cubit, Maps API, Location Services, Firestore, Push Notifications

GTS CRM · *Customer Relationship Management* · *iOS*  [App Store](#)

- End-to-end CRM: client pipeline, activity logging, sales dashboards; offline sync for field sales teams

Stack: Flutter, Dart, BLoC, REST APIs, Firebase, GoRouter

Islami Hub · *Islamic Companion App* · *iOS*  [App Store](#)

- Quran reader with audio, geolocation prayer times, Qibla compass; FCM notifications at 85%+ delivery rate

Stack: Flutter, Dart, Cubit, Location Services, Firebase, Custom Animations

Spider Erp System · *Enterprise Sales & Billing* · *Internal Deployment* *Internal / Coming Soon*

- ERP mobile client for sales reps: billing, cashier, inventory, reporting with thermal printing and barcode scanning

Stack: Flutter, Dart, BLoC, REST API, Thermal Printing, Firebase, Localization

EDUCATION

Bachelor of Science, Computer Science

2016 – 2020

Faculty of Computer and Information Sciences, Mansoura University (FCIS) · Egypt

Relevant: Data Structures, Algorithms, Computer Architecture, Operating Systems, Software Engineering

Professional Training:

- Information Technology Institute (ITI) — Full Stack .NET Web Development · Jul – Sep 2019
- C# Programming, OOP & Advanced Data Structures · Aug – Sep 2018

LICENCES & CERTIFICATIONS

- Flutter Advanced — Clean Architecture & MVVM, Udemy (Mar 2025) [\[View\]](#)
- Certified Software Engineer, HackerRank (Mar 2025) [\[View\]](#)
- Clean Architecture & Testing Masterclass, Udemy (Dec 2020 – Jan 2021)
- Flutter BLoC Pattern, Udemy (Feb – Mar 2020)
- Google Developer Challenge Scholarship: Mobile Web (May 2018)
- Microsoft Student Partnership (MSP) Internship (Feb – May 2017)

ADDITIONAL INFORMATION

Languages: Arabic (Native) · English (Professional Working Proficiency) **Military Service:** Completed
